Electrical Enclosures

From Concept To Installation

Versatile enclosure solutions

At PFS Engineering, we specialise in the design and manufacture of high-quality sheet metal cabinets and enclosures, tailored to meet the specific needs of industries across New Zealand. While we hold a range of ready-to-use stock enclosures, we are perfectly equipped to bring your bespoke engineering solutions to life, from concept to installation.

Whether you need food-grade stainless steel, durable aluminum, or versatile mild steel enclosures, we craft each to meet diverse industrial needs with plenty of finishing options from polishing to powder coating or painting for enhanced resilience and aesthetics.

Design services

At PFS, design is the keystone of our capability. Powered by an entire department, our in-house design team of experienced engineers turns concepts into practical and effective designs ready for fabrication.

Our design team is backed by over 30 years of industry expertise designing enclosures, ensuring each is engineered to perfection. We tailor solutions to fit your specifications, delivering quality and precision in every product.

Our standard stock electrical enclosures

Electrical Cabinets

All PFS Electrical cabinets are weatherproof enclosures, ideal for wet area application in Freezing Works, Dairy Companies, Pulp and Paper Mills, Oil Refineries and Food Industries. Choose a flat roof or a sloped roof.

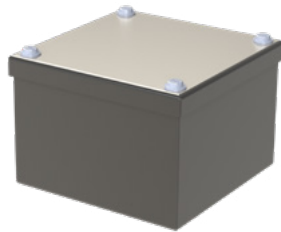

Pillar Boxes

PFS Pillar Boxes are made from marine-grade aluminum and are powder coated (green) on the outside. Applications include Power Board Distribution for Subdivisions, Remote Pump Station Controls and Mariner.

Pullin Boxes

PFS Pullin Boxes are made from 1.2mm 3042B Stainless Steel and acid cleaned. Applications include Dairy, or other industries requiring terminal boxes. Screw fixed lid.

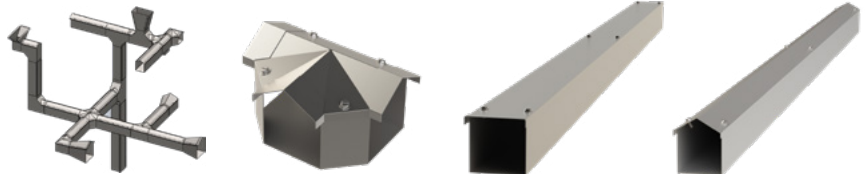

Isolation Covers

PFS Isolation Covers are made from 2mm 304 2B stainless steel and are available in custom sizes. Hinged lid.

Modular Trunking System

Peaked and flat lid modular trunking systems available, which are uniquely customisable, modular and come with a quality guarantee.

Custom bespoke cabinetry

In addition to our stock range, we can supply your special requirements. Wall Mounts and Gland Plates can also be provided at your request. Contact us to discuss your cabinetry needs.
